Enterprise-grade IT outcomes at small business speed. We bring 20+ years of enterprise experience to every engagement — delivering faster, leaner, and smarter than larger firms.

ABOUT

PABS Labs is a nationally operating S-Corp delivering product strategy, IT modernization, and custom software solutions supporting federal mission outcomes. Founded in 2020 and operating fully remote, we bring 20+ years of enterprise experience — including work at IBM-acquired companies — to help agencies untangle legacy complexity, accelerate delivery, and integrate AI into their development lifecycle.

WHY PABS LABS

Direct Principal Engagement

Clients work directly with the Principal — no account managers, no handoffs, no information loss.

AI-Native from Day One

AI integrated into the SDLC end-to-end, not bolted on. Faster delivery, fewer defects, lower cost.

Proven in Regulated Industries

Track record across financial services, accounting, and compliance-sensitive sectors.

Outcome-Focused Delivery

Fixed-scope where possible. No padded timesheets, no surprise overruns — we deliver results, not hours.

CORE CAPABILITIES
